1. Do I need to have the music memorized for the application recording?
> Yes – all pieces must be performed by memory.

2. Am I allowed to edit an individual movement?
> No – editing is not allowed for individual movements.

3. Do I need to perform the entire concerto from the Finals list in one take?
> You do not have to record the concerto in one take. You may record each movement separately, but keep in mind that we do not allow any editing *within* a movement.

4. I wrote my own cadenza for the Mozart/Haydn concerto. May I include that in my recording?
> Absolutely!

4. Can I submit the required repertoire in any order?
> No, we require the repertoire to follow the order in the instructions:
> (1) full concerto (2) Mozart or Haydn (3) Paganini Caprice (4) Bach.

5. I recorded the video by myself (in my room or a practice room), and didn't use a producer. What statement should I submit?
> Simply provide a written statement indicating the date, time and location of each recording, and sign it.

6. I have a recording of one of my pieces from an earlier concert. Can I use that as part of my submission?
> Absolutely, as long as the performance was given less than a year from the submission date, and that you are clearly audible.

7. Can you give me an example of how you want the start times listed for each piece? *

> In a separate document (Word, Notepad, etc.), you should list the following (e.g.):
